

A 3-part tutorial series covering all the basics of creating and maintaining bonsai plants through the seasons. For beginning and intermediate participants.

November 6, 2004: Plant selection, initial shaping & design, pot establishment

March 12, 2005: Potting, re-potting, root pruning and shaping by budding & wiring

June 12, 2005: Shaping & sizing through the seasons and design elements

All classes begin at 10:30 am and take place at the Arbutus display garden (inside) in Yamhill.

Classes limited to 10 participants each

Pre registration is required. Please call Norm at 503-662-3704 to register and for more details.

Cost for the FIRST session is \$37/participant which includes a plant and training pot. 2nd and 3rd sessions \$25/person. Participants will need to bring some basic bonsai tools to these sessions: small sharp pruners, root rake and ashinaga. Tools will be available for purchase at the sessions for participants who do not yet have bonsai tools.
